CA by CCC; submitter made revisions; approved at the college level

Title: New Course Request: EDP 3XXX Cognitition and Education Science in Artificial Intelligence
https://secure.aa.ufl.edu/Approval/reports/17126
CA by CCC; sent notice to submitter

New Business:

New Graduate Course

EDA 6XXX. Communicating Through Scholarly Writing
https://secure.aa.ufl.edu/Approval/reports/17219
- JWM: Is this a replacement for EDA 6215 for the doctoral program only? What if students do not take EDA 6215 as a masters student. Will they then have the choice to take EDA 6215 or the new course? Also, it is stated this course is a part of a 4 course system designed to teach writing. What are the other courses? And the summer break is between June 25th - June 29th.
- NK: - This looks like an interesting and practical course for students in the mentioned programs
- Doctoral level students only
- To remove statement about being the first of four courses in a series

Motion to Approve by Lombardino; Seconded by MacInnes

EEX6XXX Found of SE 2
https://secure.aa.ufl.edu/Approval/reports/17214
- Gage: My questions are about the prereq course and if any objectives/assignments might be redundant? Remove comments from syllabus Word doc.
- The second of two courses on this subject
- Track changes

Motion to Approve by Jeter; Seconded by Lombardino

EME5XXX--Stealth Assessment Course
https://secure.aa.ufl.edu/Approval/reports/17195
- Caitie: Extremely interesting; sound objectives; I'm curious about the course readings being posted on Canvas – are they posted directly or on course reserves? if on course reserves, I would recommend that the syllabus specify that students will need an ARES account and VPN access to use course reserves; I'm unsure why Academic Honesty and the University Honesty Policy are separate sections – those should be combined; very well-written syllabus!

Motion to Conditionally Approve by Lombardino; Seconded by Jeter

Modify Graduate Course

EEX6233 Fundamentals of Academic Assessment and Intervention
https://secure.aa.ufl.edu/Approval/reports/17161

- Change in course title and description
- LL. Rationale for title and course description change are sound

Motion to Approve by Lombardino; Seconded by MacInnes

New Undergraduate Course

Introduction to Trauma and Crisis
https://secure.aa.ufl.edu/Approval/reports/17186
- NK: - This sounds like a very interesting course - syllabus is very clear
- Penny: Looks good.
- Include course # in title of submission
- Decided to go with SDS 3XXX
- Pre req will be junior standing
- Make sure wording matches in both form and syllabus
- Needs more detail on assignments
- List faculty member for instructor
- Make sure UFO is checked on form; EduGator Central can assist in getting letter of support

Motion to Conditionally Approve by Cox; Seconded by Lombardino

Informational Item:
IDS 2935: Creating enabling technologies for differently abled people (Quest 2 Temporary)
https://secure.aa.ufl.edu/Approval/reports/17099
- LL.Add speech-language pathology to the list of disciplines to be explored. This discipline was the first to provide augmentative electronic devices to service people with severe communication challenges There is an international journal "Augmentative and Alternative Communication" (Taylor Press) that would be an excelent resource for this course
- 14672 is a parallel AAT submission from COE
- Good job including variety of SLO's, assignments, assessments

Submission pending college level approval

This is the final CCC meeting for the 2021-2022 AY

Meeting adjourned at 3:27 pm – Motion by Cox and seconded by Lombardino
